Energy Reliability**

**Re: Export Authorization:  
AEP Energy Partners, Inc., OE Docket No. EA-318-B**

Dear Mr. Lawrence:

The Comisión Federal de Electricidad ("CFE") values the commercial and business relationship that it has with AEPEP, CFE has worked closely with AEPEP in regards to energy transactions and AEPEP has been able to provide assistance to CFE when needed, whether that be associated with an emergency condition (i.e., block load transfer) or whether it be an energy sale that facilitates daily operational needs or issues. CFE has no objection to recommend to AEP Energy Partners, INC. ("ASP") for the renewal of the Export Authorization.

Respectfully submitted,

**Comisión Federal de Electricidad**
